

**One year after  
RGSoC**

**Xheni**

**Jona**

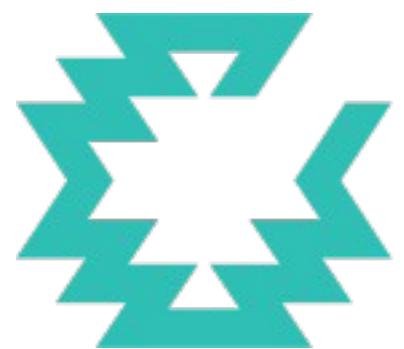

# How we met

# How we started with Open Source

# open labs

# How we heard about Nextcloud

# How we heard about RGSoC

**Jan-Christoph Borchardt** @jancborchardt

Very happy that we're participating in  
[@RailsGirlsSoC](#) with [@Nextclouders!](#)

Go ahead and apply, there's a ton of  
cool projects! A small orange party popper emoji with blue streamers.

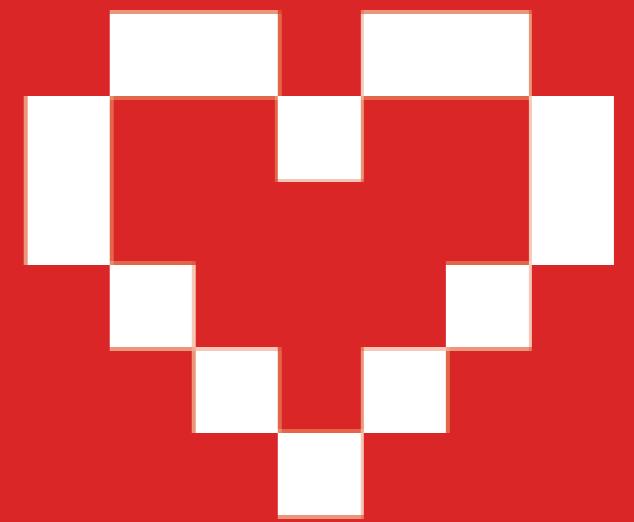

**RGSoC 2018** @RailsGirlsSoC

🚀 Applications for  
RGSoC 2017 are now  
officially open! Apply by  
March 1st – we can't  
wait to hear from you ...

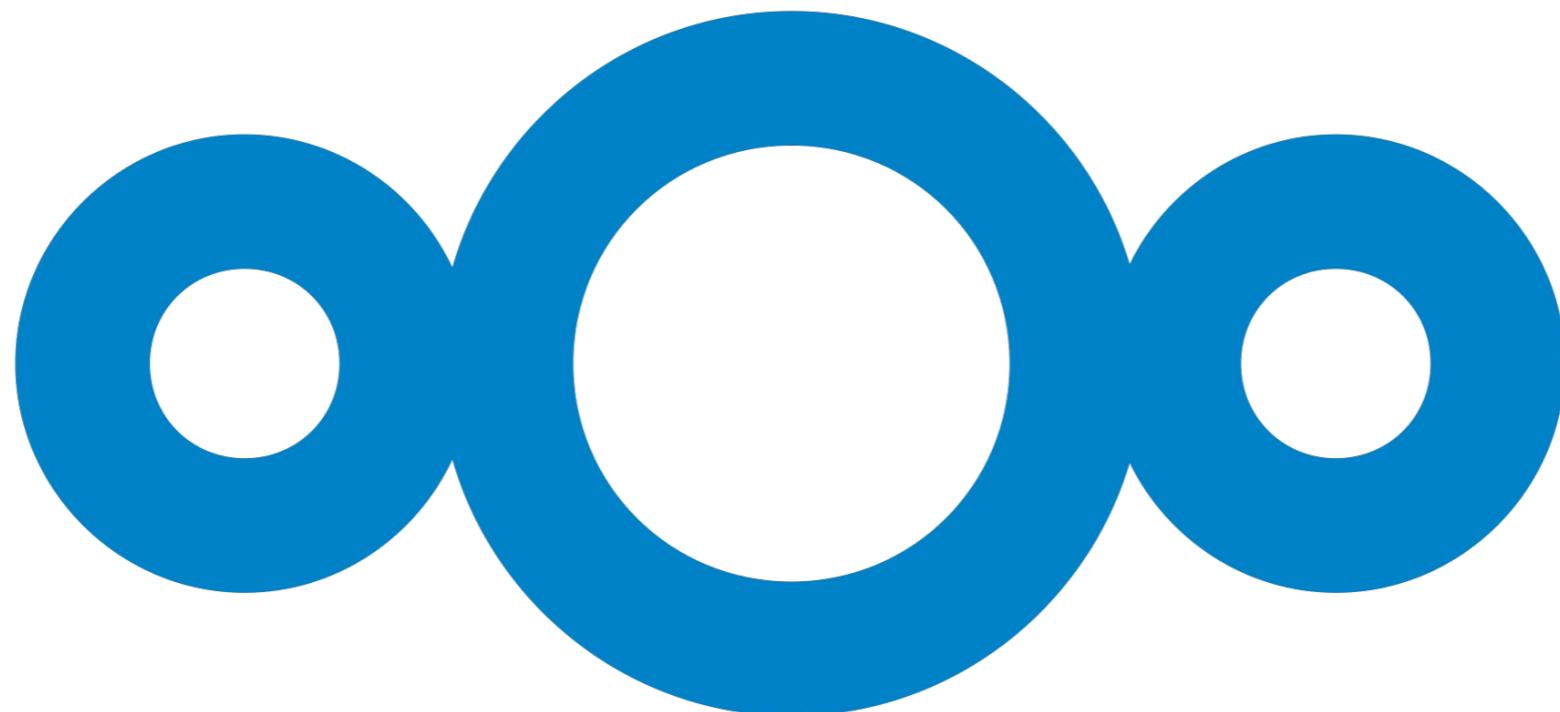

# Rails Girls

Summer of Code

**Let's apply!**

# Why Nextcloud?

Nextcloud

# Amazing community

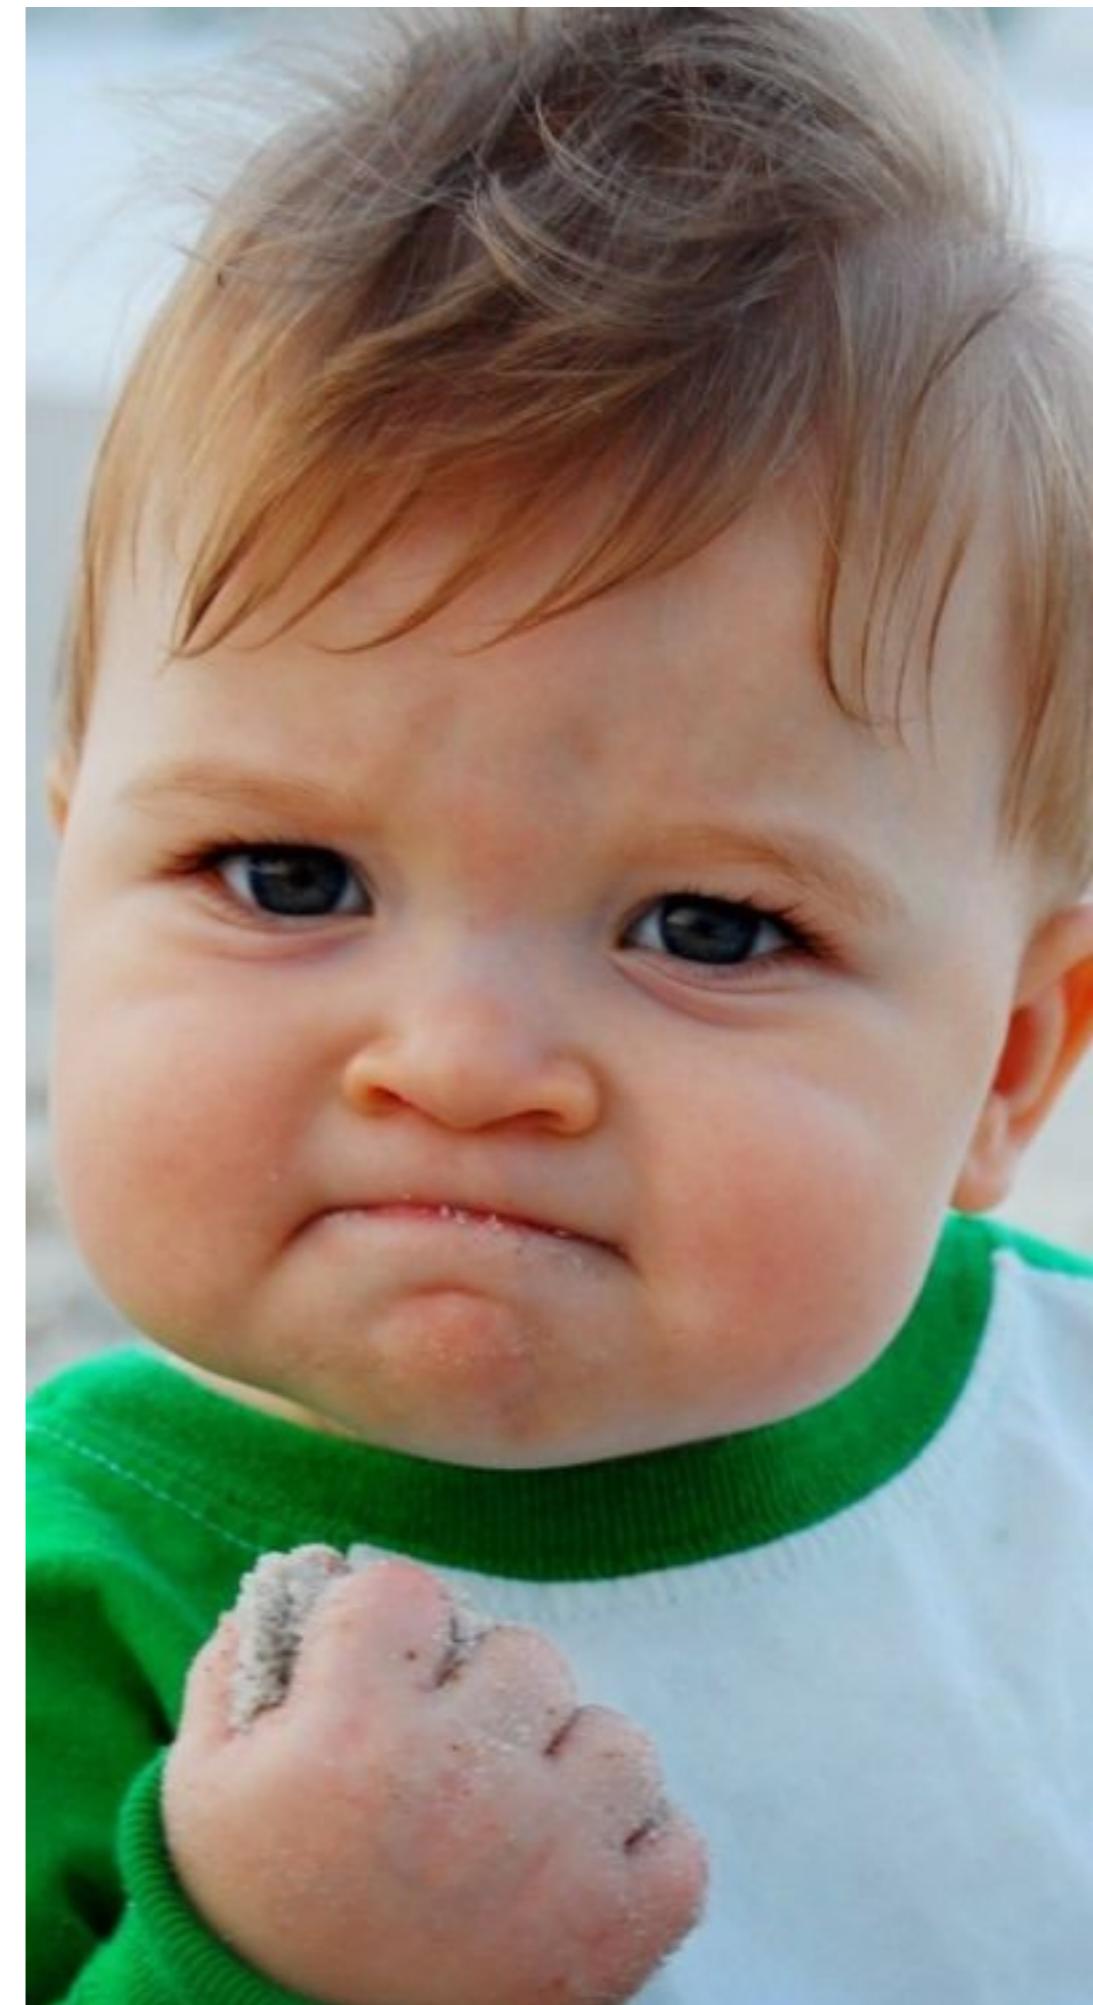

We believe in the power of the community

# A safe home for your data

- We already knew about the project
- We were using it
- Wide range of apps

**YAY, we got  
accepted!!!**

# The team

A special 'thanks' goes to  
skjnldsv and irgedwie.

We are referring to their GitHub usernames ;)

# Challenges

- Installing the Nextcloud server locally not as easy as we first assumed.
- Remembering git commands
- Dealing with Javascript and being completely beginners at AngularJS
- Working remotely over different timezones

RGSOC - Day #12  
<CODEAHOLICS>

Too much Angular JS  
not enough coffee :(

</CODEAHOLICS>

# What we learned

- Git
- Got familiar with AngularJS
- Pair programming - a good way of keeping each other on task
- Communication is the key

# The new version of the Contacts App is here....

Alexander Weidinger  
@scriptfish

Following

@Nextclouders New version of the contacts app 🎉! Changelog under [github.com/nextcloud/cont...](https://github.com/nextcloud/cont...)! Big thanks to skjnldsv, @jonatoni, @xh3n1, ... ❤️

**nextcloud/contacts**

Contacts app for Nextcloud. Contribute to contacts development by creating an account on GitHub.

# The RGSoC ended, now what?

Exciting things were  
waiting for us...

# Where are we now?

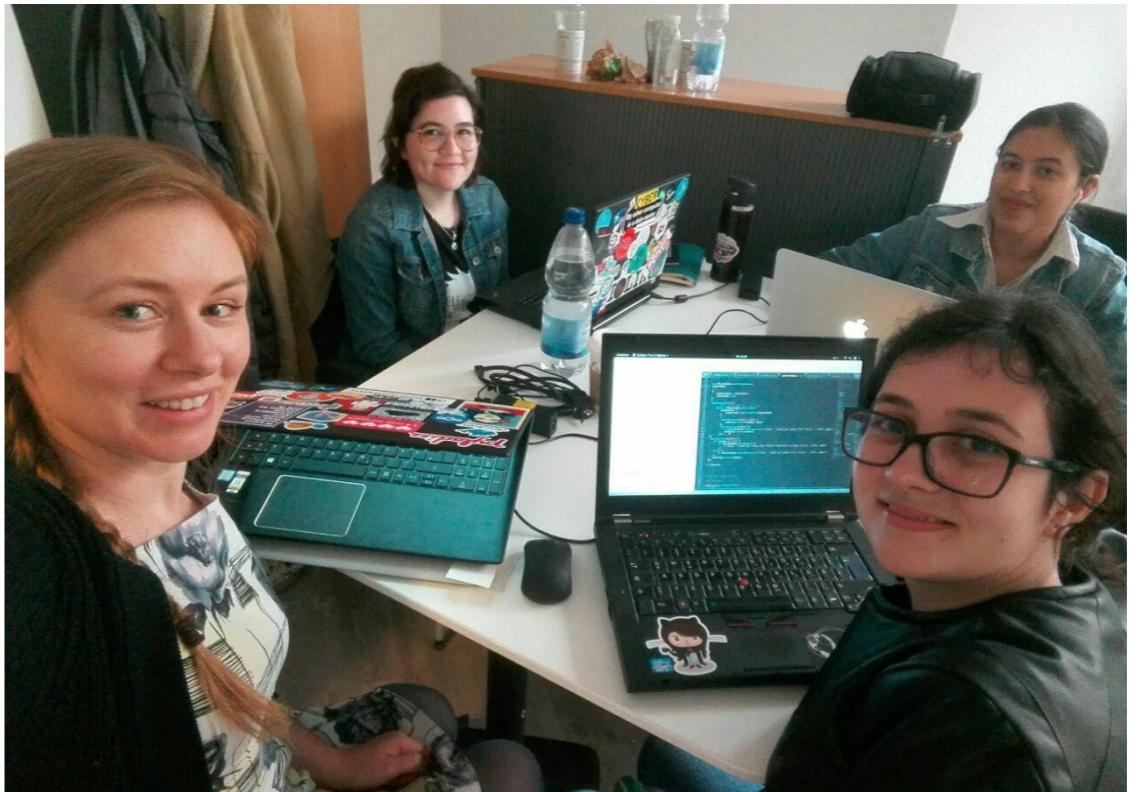

phpList

Collabora Productivity

# FOSDEM 2018

# Nextcloud Hackweek & Team Popcorn

# Helping others to get started

# GSOC with Fedora

# Why should you mentor?

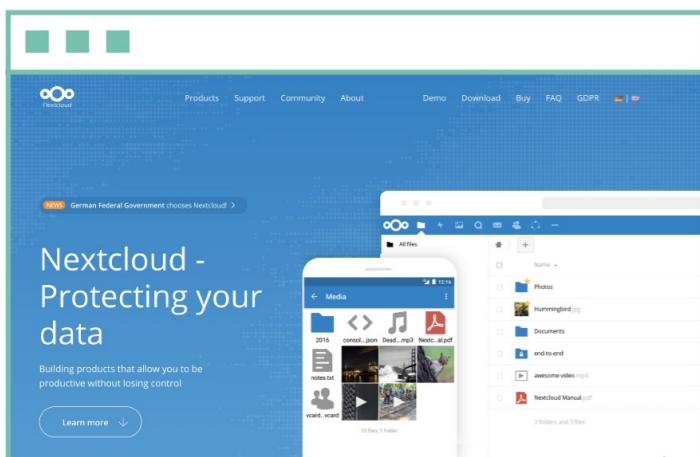

- Sharing is caring
- Get new contributors
- Diversify and grow your community

# From our experience...

- First read what is already there and ASK what is not!
- I am not a good coder. Can I try?
  - TL'DR: YES
- Choosing project/organization
  - Yes, it is immensely important! You should choose a project for which you have deep passion.
- Don't ask to ask, Just ask
  - There is nothing like a stupid question
  - “If you ask a question it makes you look stupid for 5 minutes – but if you don't ask – you stay stupid for fifty years”, so always ask questions in your life.

# From our experience...

- Community matters a lot
  - Keep remember ‘The More Eyes, The Better!’.
- One Secret :)
  - First thing, Forget the Fear of Failure!
  - If you deadly want it, you will put huge efforts in it and will make it possible!
- Good luck! ♣️

## OSS PROJECT SPOTLIGHTS

# Nextcloud

Nextcloud is an open source system for file sync & sharing, calendar, contacts etc. Very similar to what Dropbox or Google Suite are used for. It consists of a server component with apps for Files, Contacts, Calendar, Mail etc., a desktop client, and mobile apps for Android and iOS.
